

OTHER AFFILIATED INSTITUTIONS AND PROGRAMS

The goal of the South Texas Area Health Education Center (ST-AHEC) (<https://stahec.uthscsa.edu/>) is to increase the number of primary care physicians and other health professionals by developing strong “pipeline” programs in the primarily underserved 38-county region of South Texas. The ST-AHEC recruits minority students from disadvantaged backgrounds to participate in mentoring and educational activities designed to prepare and inspire them to enter into the health care field. Programs aim to strengthen science skills and increase the competitive applicant pool of minority students who pursue health professions education. The mission is to improve access to culturally competent and quality primary care through appropriate preparation, composition and distribution of the health professional workforce in South Texas. The ST-AHEC is committed to improving the health status and quality of life for residents of South Texas.
