Software Copyrights

Software piracy is a very serious issue. The following standards apply at The University of Texas at San Antonio:

1. All software should be used only in accordance with the applicable software license agreements.
2. No faculty, staff, or student should make any unauthorized copies of any software under any circumstances.
3. The use of unauthorized copies of software on any university-owned equipment will not be tolerated.

It is not right to illegally copy software or to use illegal software. In addition to possible legal action by the holder of software copyrights, any faculty, staff, and/or student engaging in software piracy will be subject to university discipline up to and including termination.

If you are aware of any software misuse or infringement of copyright laws, notify the head of your department or the Office of Internal Audit and Consulting Services (<http://uthscsa.edu/internalaudit/>) immediately.
